

GAYNOR MOVEMENT FALLING INTO CHAOS

Ross Appleton Says He Has No
Heart to Look for New
Candidate.

MITCHEL KEEPS SILENT

"Committee of 1,000" Declares
for Fusion, but Lacks
Enthusiasm.

The Gaynor independent movement is broken. R. Ross Appleton, chairman of the Gaynor League, said yesterday that there can be no successor to the Mayor, for the uprising in his favor was personal. Mr. Appleton said he had no heart to look for a man to take his place and no hope of finding one.

An attempt was made to swing some of the lesser Gaynor organizations to John Purroy Mitchel, but very little developed. The executive committee of William Lustgarten's organization, the committee of 1,000, spoke out for the fusion ticket, but without enthusiasm. Representatives of other organizations whom Lustgarten called in session passed a lukewarm resolution to "carry out the Mayor's wishes"—in just what way was not explained.

Job E. Hedges, Republican candidate for Governor last fall, has been picked to manage the Mitchel campaign. He arrived last night on the Kroomland from a vacation abroad, but had no definite answer ready. He sent word by cable last week, however, that he would accept if his health and engagements allowed.

John Purroy Mitchel came back from the Adirondacks. He attended a luncheon of Republican district leaders which was arranged before the Mayor died. He had little to say to them about politics, asking that they wait until after the Mayor's funeral.

This is primary day and the polls will be open from 3 o'clock this afternoon to 9 o'clock to-night. The primaries will probably be peaceful, though there were some charges last night that political leaders were bent upon fraud. The primaries are open only to enrolled voters of the several parties.

GAYNOR FORCE DISRUPTED.

Leader Gone, Fight Hopeless, Says
Ross Appleton.

The Gaynor movement is at an end. There will be attempts, as there were yesterday, to transfer his strength to one candidate or the other, but the unity of the organization is gone. Whether the leaders do toward swinging the Gaynor strength one way or another is effective in theory only, for, as R. Ross Appleton said yesterday, there is no one to take his place.

Mr. Appleton, who was president of the Gaynor Nominating and Fusion League, the principal organization which stood for the Mayor's reelection, said he had no heart to look for a successor to Mr. Gaynor as the league's candidate and furthermore that he had no desire to attempt the impossible.

"The news of Mayor Gaynor's death came to me while I was in the Adirondacks," he said. "I left the city the day he died and did not return until this morning. Therefore I am not familiar with what has taken place."

No One to Take His Place.

"In expressing my views in the matter I can only say that in my opinion Mayor Gaynor has no duplicate. There is no one to take his place. He was one in whom it may truly be said that all the elements were mixed. His quiet wit and terse expression were a delight to those who came in close relation with him. He was as determined as Andrew Jackson, as deep as Grant and as humorous as Henry Ward Beecher. Like Lincoln, he was unique. His sympathy with the less fortunate was marked to an extreme. This perhaps was his strongest characteristic and accounts for his tremendous popularity with the masses."

"His knowledge of municipal affairs was simply marvellous and his whole ambition was to establish a standard of city government below which the people would not permit any future Mayor to go."

"The Gaynor League was formed to nominate and elect him. Its inspiration was Gaynor. The first step toward the end in view occurred September 3 at the City Hall. It was a town meeting, a gathering of his neighbors and friends, asking him to be their Mayor again."

"He is dead. I have no heart to look for a successor; no desire to attempt the impossible."

Offer to McNamara Resented.

Continued on Second Page.

Asks Hour of Official Mourning for Gaynor

Mayor Kline issued the following proclamation last night:

To the Public: The funeral of the Hon. William Jay Gaynor, the beloved late Mayor of New York City, will occur next Monday morning, September 22, at Trinity Church.

The people of this city cannot pay too high honor to the memory of this great man and great Mayor, who practically gave up his life in his service.

As Mayor of this city through the calamity of his death I feel that next Monday, the day of his funeral, should be observed throughout the city as generally as possible as a day of mourning. I therefore request the citizens of this city, as a mark of respect to his memory, to place all flags at half mast on that day, and would suggest a suspension of all business for a period of one hour while the funeral ceremony is being held.

I have ordered that all city departments except those which it is necessary to keep open for the public convenience shall be closed for the entire day.

I believe that this is as little as can be done to honor the memory of the man who performed such lasting service for our city and who is so universally beloved by all its people.

Furthermore, I desire to announce that until after the funeral only the necessary routine business of this office will be transacted.

While the body of our late Mayor is on the ocean bound for this city and until after the funeral ceremonies I feel it to be only fitting that his memory should be honored in this way.

A. L. KLINE, Mayor.

DOCTOR'S WIFE VICTIM OF HIS EXPERIMENT

Explosion of Tanks in Synthetic Rubber Process
Wrecks Laboratory.

WOODBRIDGE, N. J., Sept. 15.—Mrs. Louis Gottschalk was killed by an explosion in her husband's laboratory this morning while watching the progress of his work in trying to make synthetic rubber.

Dr. Gottschalk had tanks filled with gases and fluids under compression. Before breakfast the doctor and his wife had applied heat to increase the pressure and left the chemicals while they ate breakfast.

Mrs. Gottschalk was impatient to get back to the laboratory and see what progress was made. She left the table before her husband and as he stepped outside the house on the way to the laboratory the building was blown to bits. Dr. Gottschalk found his wife dead in the wreckage.

It was impossible to discover what had caused the explosion, whether it was due to some ingenious act of Mrs. Gottschalk or was due to a weakening in one of the tanks.

DEER BREAKS INTO THE ZOO.

Walks Right In, Turns Around,
Walks Right Out Again.

Keepers at the Bronx Zoological Park were startled yesterday to find that a wild deer had broken into the park. For an hour they manoeuvred to capture the deer, which they cornered it at one end of the park. Then the deer jumped over a six foot fence and was away.

It was about 8 o'clock in the morning when the deer was first seen in the park and the alarm was sent out that one of the zoo's regular inhabitants had broken out. But when the keepers found the deer, which was a big whitetail buck, near the Bronxville entrance to the park at the foot of Lake Agassiz, they saw at once that it was a stranger within their gates.

The head keeper marshalled a battalion of keepers with lariats and closed in on the whitetail. After running back through a patch of woods the buck found himself up against the fence. He leaped it easily and fled down the Boston road. The keepers returned to their regular work much disturbed.

FIRE HOT DAY IN FRISCO.

Warmest of the Year, but Breeze
Tempered Heat.

SAN FRANCISCO, Sept. 15.—This was the hottest day of the year, the mercury rising to 94 degrees in the shade at 2 P. M. The heat was not oppressive, as it was free from humidity, and by 4 P. M. there was a gentle breeze that tempered the heat.

In other parts of the State high temperatures were recorded, at Red Bluff and Fresno 100, Sacramento and San Jose 98, San Luis 99 and Los Angeles 86.

A BOWERY PROGRESSIVE.

Third Party Will Nominate a Man
to Succeed Big Tim.

WASHINGTON, Sept. 15.—Twenty members of the Progressive party in Congress met this morning in the office of Representative M. Clyde Kelly of Pennsylvania and formed the Progressive Congressional campaign committee. It is understood that Senator Poinsett of Washington will associate himself with the organization.

Representative Hinebaugh of Illinois was elected chairman of the new committee, Representative Ruple of Pennsylvania, secretary, and Representative Hulings of Pennsylvania, treasurer. The Progressives will place candidates in all Congressional districts for the campaign in 1914. They plan to start at once putting nominees in the field in districts in which there is at present a vacancy.

They will even put a Bull Moose in nomination in the Bowery district made vacant by the death of Big Tim Sullivan.

AMERICAN INDICTED FOR ORTIZ MURDER

Barney Cline and His Thirteen
Mexicans May Be Hanged
Together.

U. S. TROOPS GUARD JAIL

Carrizo Springs Gets Warning
of Impending Attack by Rebel
Friends of Prisoners.

CARRIZO SPRINGS, TEX., Sept. 15.—Barney Cline, an American, and thirteen Mexican members of his band of ammunition smugglers were indicted for murder to-day by a special Grand Jury.

They will be put on trial Wednesday. If a verdict of guilty is brought in, as is now expected, they will all be hanged at one time.

Cline is about 35 years old and gives evidence of having a good education. He says he was graduated from Harvard, but that Cline is not his right name. He refuses to throw any light on his past life.

Local feeling here is strong against him and his Mexican companions because of the cruelties they inflicted upon Deputy Sheriff Manuel Ortiz before they finally placed him before a firing squad. The War Department in response to an appeal sent from this city has ordered that a strong military guard be maintained around the jail and throughout the town pending the final outcome of the cases.

A cowboy from the Coleman ranch, forty miles south of here, who arrived here to-day, reported that a band of Mexicans had gathered at the Cochino wells for the purpose of making a raid on Carrizo Springs to rescue the prisoners. The report caused little excitement here. The town is well guarded and, in fact, the male residents, fortified by a large contingent of cowboys from the adjacent ranches, would welcome a brush with the Mexicans. As a precaution, however, a detachment of the Fourteenth Cavalry was sent south to intercept any advance on the town.

AMERICAN REFUGEES SAFE.

Party Reported Captured in Found
Near Saltillo.

MEXICO CITY, Sept. 15.—Attorney Adolfo de la Lanza was sworn in as Minister of Justice to-day, and another lawyer, Arturo Alvarado, was appointed sub-Minister.

Attorney Antonio de la Pena y Reyes was sworn in as sub-Minister of Foreign Relations. Jose Maria Lozano was to have been sworn in as Minister of Communications, but was absent from the city.

Eduardo Tamarriz is temporary Minister of Public Instruction and Leopoldo Rebollar is temporary Minister of the Interior. Both of these men are lawyers and are now sub-Ministers.

Information has been received at the American Embassy from the consulate at Saltillo that the 109 refugees from Torreon who were reported captured arrived at Saltillo at 5 o'clock this afternoon. They say they were not molested on the way and suffered nothing but the hardships which are natural to a long journey on foot. The consulate and the Americans at Saltillo, assisted by the local authorities, will take care of the refugees, few of whom have any money.

Minister of the Interior Urrutia has resigned from the Huerta Cabinet and his resignation has been accepted. He was practically forced out and is very angry at his enemies. In the text of his resignation he says:

"I accepted the office which the President was pleased to confer upon me, thinking to contribute my share of loyalty and honesty to his Government. However, the present circumstances through which the country is passing seem to demand other qualities which I cannot supply."

Urrutia said in an interview: "My personal dislike of my patriotic sentiments forbid my joining the administration which the tortuous truckling policy which a certain member of the Cabinet who has won the President's confidence is attempting to develop."

Urrutia's successor has not yet been chosen, but the temporary Secretary of the Interior will be Senator Rebollar, formerly private secretary to Garcia Aldape, and who has been Sub-Secretary of the Interior for two days.

AMERICAN ENGINEER KILLED.

Refugees Tell of Murder of Morris
P. Root by Rebels.

SAN FRANCISCO, Sept. 15.—Refugees who arrived here yesterday brought word of the murder of Morris P. Root, an American mining engineer, by a band of revolutionists. Root was the superintendent of the El Tigre mines at Tepic.

While on his way to join employees of the company preparing to defend the mine property against attacks of guerrillas he is said to have been seized by a dozen bandits, disarmed and cut to pieces.

Root had been in Mexico for sixteen years. He was 50 years old.

Max Lambert, another American engineer, who came in on the Peru, had a narrow escape from bandits in the State of Tepic while defending his wife and child from an attack. Lambert took his wife and child out of a window of their home and they escaped. He remained to fight and was wounded. He was taken dead, the bandits then proceeding to loot the house. After they had left Mrs. Lambert returned and managed to obtain aid for her husband.

MADERISTAS FLEE MEXICO.

Ex-Governor Roales of Hidalgo
Among Those to Reach Havana.

SPECIAL CABLE DISPATCH TO THE SUN.
HAVANA, Sept. 15.—Many Maderistas arrived here to-day from Progresso, where they embarked under assumed names in order to escape persecution by provisional President Huerta. The chief of police for Yucatan boarded the ship and tried to find the refugees, but was not successful.

Among those who arrived on the vessel from Progresso were Calisto Maldonado, Patron Correa and Arcadio Centeno.

Another man who fled from persecution by Huerta and who arrived from Vera Cruz to-day is Joaquin Roales, formerly Governor of the State of Hidalgo.

DWYER RAIDS A HOTEL.

Arrests Alleged Proprietor and the
Head Waiter.

Inspector Dwyer and a flock of policemen went into the Belmont Hotel, at 116 West Forty-fifth street, between Long-acre Square and Sixth avenue, at 11:30 o'clock last night and arrested the alleged proprietor, a negro, and the head waiter. They were charged with maintaining a public nuisance, and a policeman was left in the hotel to see that no more guests registered.

Police Commissioner Waldo and Deputy Commissioner Newburger were in the West Forty-seventh street station house when the prisoners were brought in and locked up. They were Mrs. Rose Barwick and William Loretti.

Two detectives who lived at the hotel a week got the evidence. They say men were solicited by women in the restaurant, which has a cabaret show. The police did not attempt to close the restaurant or bar.

A great crowd in West Forty-fifth street watched the raiders.

\$500,000 FIRE WRECKS NEW ROCHELLE STORES

Ware Department Store Is De-
stroyed—Girl Cashier
Missing.

NEW ROCHELLE, N. Y., Sept. 15.—A \$500,000 fire destroyed to-night the large department store of the Howard & Sons Co., located at the corner of the James Butler Grocery Company and a large part of the Coutant pharmacy.

The fire started shortly after 9 o'clock in the rear part of the Ware store and at midnight, while under control, was still burning fiercely. The fire spread rapidly until the entire building extending from Main street to Leroy place was a mass of flames.

The firemen had scarcely arrived on the scene when the flames were shooting through the roof.

Mr. Ware said he had not the slightest idea what caused the blaze, unless it was the work of an incendiary or due to defective wiring. He places his loss at approximately \$475,000, while the remainder of the loss was sustained by the adjoining properties of Coutant and Butler.

Howard R. Ware, head of the corporation, said that he would immediately begin plans for the reopening of another store in this city.

Fire Chief James Ross summoned help from Mount Vernon, and two engines and a crew of twenty volunteer firemen responded.

Frank Killdare, Neptune Fire Company, one of the first of the volunteer firemen on the scene, broke in a rear door of the Ware Building and was knocked down by the explosion and the falling of an elevator. Policeman Thomas Kiernan and Fireman Adam Kittinger rushed into the burning building and dragged Kiernan out unconscious. Kiernan and Kittinger were burned about the face and hands.

Miss Anna Chasé, the cashier, who was believed to be in the office of the Ware store just before the fire, had not been located at midnight and it was believed that she was trapped in the building.

BOYS SAVE NEW HAVEN TRAIN.

Discover Broken Rail and Notify
Fireman Just in Time.

HARTFORD, Conn., Sept. 15.—Quick action and cool wits averted a serious wreck on the New Haven road here this afternoon, when six boys ran to the flagman at the Seymour street crossing and shouted that one of the rails on the inbound tracks of the Midland division was broken.

The flagman rushed down the tracks and stopped a train from New Britain within thirty feet of the broken rail. The train was a passenger train and the boys provided with a red flag, stood guard until arrangements were made for re-routings all trains coming into Hartford and for repairing the rail.

The boys are Matthew Despard, John and Thomas Wilson, George Pagan, Charles Zilch and Martin Shea, who were on their way home from school. Their names will be sent to the company's office at New Haven with the recommendation that they be rewarded.

ICE FORMS IN MOHAWK VALLEY.

Frost Destroys Crops in the Genesee
Valley Also.

TRIEBS HILL, N. Y., Sept. 15.—Heavy frost in the Mohawk Valley did great damage last night to late vegetables, particularly to corn, potatoes and tomatoes. It was the earliest heavy frost in a number of years. In some places half an inch of ice formed.

GENESEE, N. Y., Sept. 15.—Thousands of dollars of loss to farmers resulted from the killing frost in this section last night. The frost of last week killed potatoes and corn plants on the flats alone. Last night's frost was particularly bad on a large area on the upland. Gardens are almost entirely destroyed.

COUNTLESS WRITING FOR MOVIES.

Lady Warwick to Use Castle and
Easton Lodge as Settings.

SPECIAL CABLE DISPATCH TO THE SUN.
LONDON, Sept. 15.—The Countess of Warwick, whose recent lecture tour in America was not a financial success, is now engaged in writing bioscope plays. She has completed one which is called "The Great Pearl Affair," which she admits is highly sensational, but she hopes to produce some of a far higher character, using Warwick Castle and Easton Lodge in Essex as settings.

The Countess proposes to adapt some of the historical incidents of medieval times, which are recorded in the Warwick archives and which are practically unknown. She also intends to produce educational ideas in dramatic form, believing that modern thought can be demonstrated on films.

The Earl and Countess of Warwick called a meeting of their creditors about two weeks ago with a view to liquidating their debts. The Countess has lost much money in bad investments and it was said that her American lecture tour was undertaken for the purpose of increasing her income sufficient to liquidate some of these obligations.

Years ago the Countess was much in the public eye as the "Babbling Brooker" of the Tranby Croft bacarat scandal. Of late years she has taken up socialism.

Harvard of Oxford—the latest gold or shell ornaments, at Spencer's, 7 Maiden Lane, Ad.

NEW HAVEN IS HELD BLAMELESS BY MIX

Warrants Out for Engineer
Miller, Brakeman Murray
and Conductor Adams.

ROAD CHANGES SYSTEM

Two Grand Divisions, East and
West of New London,
Established.

NEW HAVEN, Sept. 15.—Responsibility for the New Haven wreck on September 2, in which twenty-one persons were killed, is placed entirely upon the employees of the two trains that collided and the railroad company is not held to blame for faulty signal systems or lax methods in the finding of Coroner Eli Mix, which was made public to-night.

The finding holds Augustus B. Miller, engineer on the White Mountain Express, and Bruce C. Adams, conductor, and Charles Henry Murray, brakeman, of the Bar Harbor express, criminally responsible for the accident.

Miller was arrested on a bench warrant and arraigned before Judge Edwin B. Gager, at a special session of the Criminal Superior Court on a charge of manslaughter. His case was continued to the regular October term and he was released on a bond of \$5,000. Murray is still held under a Coroner's warrant, under a \$5,000 bond. Adams, the conductor, has not yet been taken into custody. Bench warrants were issued.

Coroner Mix states that Rufus W. Wanda, engineer on the Bar Harbor Express, was also guilty of gross negligence in running by banjo signal 25, but he says:

"I find that this negligence was an incident rather than the proximate cause of the wreck that followed. Unless therefore the knowledge of the incompetence of his conductor or his flagman, or of both of them, can be brought home to Wanda by evidence of testimony his conduct cannot be held criminal for the death of said deceased."

The Coroner's Findings.

Coroner Mix finds that the banjo signal system on the Hartford division is safe if the company rules are not violated by the men, and writes of what he calls a "sorry record of discipline."

"It is apparent," he says, "these violations (the improper flagging of trains and the running by of signals) of the rules have been too frequent and too numerous. I urge upon the Public Utilities Commission of the State of Connecticut a thorough investigation of the system of discipline of said company's employees. I believe it to be a very fruitful field for inquiry and one to which their attention should be immediately directed."

The Coroner absolves the company from blame for the rule violations in the following paragraph:

"I, therefore, find that said company has not committed any violations of the rules, and under the conditions existing has endeavored whenever said violations were brought to their knowledge to prevent their recurrence."

The Coroner's finding on this matter comes right on top of statements made by General Manager C. L. Bardo at the investigation of the Stamford wreck to the effect that the company did not get competent men and could not properly control its employees because of the interference of the labor unions.

Coroner Mix reports that from January 1, 1911, to September 1, 1913, 101 cases of improper flagging have been reported to the New Haven, and in these cases 28 employees have been discharged and 75 disciplined. He also finds that in the same period of time 158 cases have been reported to the company of engineers running by signals, and that in these cases 22 men have been discharged and 117 disciplined. The Coroner's report says that it is clearly impossible for either the company or himself to find the exact number of cases of improper flagging and of failure to stop at signals that have not been reported.

Mr. Elliott's Changes.

Details of President Howard Elliott's changes in the management of the New Haven road were announced to-day. The system has been divided into two grand divisions. All lines west of New London and Willimantic will be known as the western division, and John Droeghe has been named as its superintendent, with headquarters in New Haven.

The eastern division includes all lines east of the two points named and the superintendent is Clayton E. Woodward, with headquarters in Boston. The office of master of transportation has been abolished. James O. Halliday has been appointed assistant to the general manager.

Territorial lines of division are changed, the New York division, which is restored, being that part of the Shore Line division between New Haven, Harlem River and Woodlawn, including Danbury and New Canaan branches.

It will be under Charles H. Motsett as superintendent. The Shore Line division will be under W. H. Foster, with offices in New York. Harry C. Oviatt is appointed superintendent of the Old Colony division, with offices at Taunton, Mass.

VICTIM'S HEIRS GET \$10,100.

New Haven Settles for Record
Amount in Connecticut.

HARTFORD, Conn., Sept. 15.—As damages resulting from the fatal New Haven wreck at Stamford on June 12 last the New Haven road made a settlement to-day with the heirs of Dr. Harmon G. Howe of this city, who was one of the five killed, paying \$10,100. Oviatt is appointed superintendent of the Old Colony division, with offices at Taunton, Mass.

The offer of the railroad's attorney for a settlement of \$9,500 was accepted at first by the Howe estate executors, and then the road paid the funeral expenses, which included a special funeral train from this city to Jericho, Vt. After more negotiations the road agreed to pay \$800 additional, bringing the total to \$10,100, which as far as known, is the largest death claim settlement in Connecticut records.

BRYAN DEFINES DIPLOMACY.

Urges Cold Storage Principle for
Foreign Relations.

WASHINGTON, Sept. 15.—Secretary of State Bryan greeted to-day the members of the International Congress of Refrigeration and informed them that the principle of cold storage might well be applied to diplomatic relations.

"Diplomacy is the art of keeping cool," said Secretary Bryan. "While we do not desire to keep our foreign relations in cold storage we do want to refrigerate our disputes with other nations."

The Secretary said that such treaties as the peace agreements he proposed to the nations of the world on behalf of President Wilson will serve to keep the temper of nations cool, just as refrigeration keeps foodstuffs cool.

CAUCUS CALL FOR \$100 EACH.

Congress Campaign Committee Asks
Representatives First.

WASHINGTON, Sept. 15.—Chairman Frank E. Doremus of the Democratic Congressional campaign committee, by letter to every Democrat in Congress to-day soliciting \$100 in each case, payable before July 1, 1914.

The total amount, more than \$30,000, will be used in campaign work for the next Congressional election.

TURKEY TO GET ADRIANOPOLE.

Report From Constantinople Bul-
garia Will Sign It Away.

SPECIAL CABLE DISPATCH TO THE SUN.
CONSTANTINOPLE, Sept. 15.—It is officially announced that an agreement between Turkey and Bulgaria in regard to the possession of Adrianople and other points in the Balkans is practically complete and that a peace treaty between the two countries will be signed on Wednesday.

It is unofficially but reliably reported that Bulgaria by this agreement will abandon Adrianople and other territory, which will give Turkey about twice as much territory in Europe as was provided for in the treaty of London.

Notwithstanding the apparent definiteness of the announcement, a disagreement at the last moment is possible.

DR. HANLEY IS INDICTED.

Rockefeller's ex-Pastor Explains
Why He Whipped His Father.

THE HARTFORD, Ind., Sept. 15.—The Rev. Dr. A. Hanley, president of the Indiana Baptist College at Franklin, formerly pastor of John D. Rockefeller's church at Cleveland and later, for two years pastor of a church at Providence, was indicted to-day by the Grand Jury for assault and battery on his father, Calvin Hanley, aged 63.

Dr. Hanley, who admitted he "switched" his father, has issued two long statements to the press explaining that he did so as a measure of discipline because for thirty years his father had been cruel to his mother.

The Grand Jury heard the testimony of Dr. Hanley's brother, Oakley Hanley; Mrs. Hanley, who was the wife of Oakley Hanley, who were the only eyewitnesses, and Dr. Payne, who attended the father and found him badly injured.

The father was not summoned. The eyewitnesses admitted that in inflicting punishment Dr. Hanley had to use considerable force to make his father submit. They also admitted that the immediate occasion for the punishment was a rough witicism the old man made about Mrs. Oakley Hanley and when Dr. Hanley demanded that he apologize and he refused the whipping began.

Dr. Hanley's statements laid great stress on the treatment to which his mother had been subjected. Neighbors of a quarter of a century say they never heard of this cruelty.

WILSON BACK TO WHITE
